

STUDENT TRANSPORTATION

Students living more than four miles from their designated school attendance centers shall be entitled to transportation to and from their attendance center at the expense of the school district.

In addition to the transportation services regularly and legally provided by the District, option-enrollment students shall be transported, free of charge, if they live within EIGHT miles of the district boundaries, PROVIDED that they meet the bus on a regularly established stop/route. If an option-enrollment family does not meet the bus on a regularly established stop/route, transportation will be provided if the family lives within EIGHT miles of an existing ROUTE and the family agrees to pay one-half of each contracted mile for each round-trip mile beyond the EXISTING ROUTE (it will be the responsibility of the family to notify the bus service if their student(s) will not be riding or the family will be responsible for any miles traveled).

The Public school will transport parochial students, if those students live within the Creighton Community Public School District or abide by the above policy.

Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Those parents who transport their children at the expense of the school district shall be reimbursed in accordance with state statute.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It shall be within the discretion of the board to determine such conditions.
